Coal Mining & Processing's Annual Index for 1977 (Vol. 14)

A

AMC's preliminary program, April 70
Acid mine drainage: The problem & the solution, August 66
Administration "scrubber" policy, The (gutter politics, cont'd), (Comment), September 9
Alabama By-Products Co., Tarrant, AL, February 84
Alderman, John K. & Smith, William M.
—Acid mine drainage: The problem & the solution, August 66
Amax Coal Co., Gillette, WY, April 94
Amherst boosts production 50% with continuous haulage system, August 52
Amherst Coal Co., Lundale, WV, August 52
Argonne National Laboratory, Chicago, IL, February 68
Assessing the economics of steam coal preparation, September 74

B

BCOA & NCA collaborate on a new miner training program, January 61
Badly needed training programs are on the way, (NCA Hotwire), July 27
Battery vehicle fleet demands careful maintenance, February 64
Bearce dryer goes commercial, The, October 72
Belle Ayr mine aspires to 15 million tons in 1977, April 94
Bi-Gas pilot plant processes 5 tph, September 86
Black gold—The dark & shiny sides for '77, January 72
Blakely, J. Wes
—Mine worker training & development, January 58
Bly, Robert L.
—How to keep diesel engines at peak efficiency, August 72
Brennan, Joseph P.
—We must move into a new era, January 64
Brumbaugh, Fred R.
—Space photography—A valuable tool for surface mine planning, March 78
Buntain, David
—Electronic automation accelerates in Britain, January 66
—Selby: Britain's biggest coal mining project gets underway, December 66

C

Calculating heat content from ash percentages, May 112
Call for statesmanship, A, February 77
Cartel energy objectives are sound, but conflicting policies will hamper effort, (NCA Hotwire), June 55
Charleston exposition becomes a major event, May 68
Charmbury, H. B.
—Bearce dryer goes commercial, The, October 72
Chase, Victor D.
—New hydrogen process is in the works, A, April 124
Clean air law presents new questions for coal (NCA Hotwire), October 50
Clinchfield rebuild/repair center cuts time & costs, May 90
Coal leasing—one problem after another, (NCA Hotwire), December 47
Coal outlook: Very good, if . . ., September 102
Coal preparation technology gears up to meet utilities' needs, September 81
Coal presents a formidable case for improving the 1969 Coal Act (NCA Hotwire), August 45
Coal processing facility stores 100,000 tons for train loading, March 64
Coal stockpiling gets priority at OG&E's new power generating plant, December 78
Coal's imposing outlook as a source of chemicals, August 58
Cole, Howard W., Jr.
—Foam suppressants for control of dust, October 98
Computer system helps firm keep pace with growth, February 84
Consolidation Coal Co., Bishop Mine, Bluefield, VA, September 113
Coventional mine produces 70% coarse coal for easy cleaning, December 70
Crawler tractors strip to 150 ft in block-cut operation, September 110

D

DeRienzo, Paul P. & Phillips, Peter J.
—Assessing the economics of steam coal preparation, September 74
Detroit Edison Co., Detroit, MI, February 60
Dozers & loaders work together to uncover thin Kentucky seam, June 106
Driltech, Inc., Alachua, FL, February 82
Driltech opens new Florida plant, February 82

E

Earl, Christopher B.
—Scrubbers win the energy-SO_2 controversy, October 64
Eastover Mining Co., Brookside, KY, April 100
Effective use of industrial engineering in the deep mine, July 54
Electronic automation accelerates in Britain, January 66
Energy technology for now . . . and for the future, May 94
Enforcement begins for ground check monitoring underground, June 84
Equipment & services to be presented at the Charleston exposition, May 70
Exhibition in print, April 72
Exhibitor wares cover broad spectrum of coal needs, October 82
Exhibitors at the Eastern Mining & Industrial Exposition, May 69

F

Falcon Coal Co., Jackson, KY, June 66
Falcon Coal shines in experimental reclamation, June 66
Falkie, Dr. Thomas V.
—New mining technology: What to look for in the next 24 months, January 80
Fighting the productivity slump with ACT, October 92
Fledgling coal producer pushes toward the top in output, April 100
Foam suppressants for control of dust, October 98

G

Getting the energy house in order (NCA Hotwire), November 22
Goodman Equipment Corp., Chicago, IL, February 77
Great Lakes terminal opens way for western coal shipment, February 60
Greenhouse of CO_2 emissions standards, The (Comment), August 7
Ground monitoring units that meet the standards, June 98
Guccione, Eugene
—Coal's improving outlook as a source of chemicals, August 58
—Industry & government bicker on energy policy at the AMC Convention, July 68
—Longwall mining's improved outlook, December 60
—Product liability lawsuits: the manufacturers' nightmare, November 52
Guidelines to quieting noise in preparation plants, July 60
Gutter politics—Dismemberment (Comment), July 9

H

Holmes, Connie
—U.S. coal exports: still huge, but declining, November 74
Holz, Peter
—New mine rescue system is ready in South Africa, A, November 68
—South African coal industry sees significant expansion, February 71
Honesty is the first rule (NCA Hotwire), February 21
How & where coal fits into the energy plan, October 76
How blending improves coals' quality, October 60
How the British train their miners, July 51
How to cope with blasting problems in strip mining, September 94
How to keep diesel engines at peak efficiency, August 72
How to select the right thickener, May 98
How to succeed (Comment), October 9

I

I Am Coal: I Am America (NCA Hotwire), January 35
Industry & government bicker on energy policy at the AMC Convention, July 68
Industry cooperation to reach new high at October NCA/BCOA Coal Conference (NCA Hotwire), September 53
Introducing . . . (Comment), May 7

J

Jewell Smokeless Coal Corp., Van Stant, VA, April 112
Jewell Smokeless Coal executes $2.75 million modernization program, April 112

K

Kaneb Services, Inc., Houston, TX, March 64
Kessler Coals, Inc., Whitesville, WV, January 62
Kessler Coals, Inc., Whitesville, WV, February 64
Kessler Coals institutes a training program second to none, January 62
Knife River Coal Co., Beulah, ND, May 84
Knife River keeps ahead in reclamation, May 84
Konya, Calvin J.
—How to cope with blasting problems in strip mining, September 94

L

Largest-ever liquefaction plant will test H-Coal process, March 84
Lee, L. Courtland & Russell, David C.
—Whatever happened to federal coal leasing? June 60
Let's join forces, (Comment), December 9
Lindsay, George C.
—Driltech opens new Florida plant, February 82
Longwall mining's improved outlook, December 60

M

ME-MMA looks at lighting, March 72
MESA academy teaches all phases of mining, April 122A
Majestic Mining, Inc., Widen, WV, December 70
Mason, Richard H.
—Amherst boosts production 50% with continuous haulage system, August 52
—Battery vehicle fleet demands careful maintenance, February 64
—Coal processing facility stores 100,000 tons for train loading, March 64
—Conventional mine produces 70% coarse coal for easy cleaning, December 70
—Effective use of industrial engineering in the deep mine, July 54
—Enforcement begins for ground check monitoring underground, June 84
—Falcon Coal shines in experimental reclamation, June 66
—Fighting the productivity slump with ACT, October 92
—Fledgling coal producer pushes toward the top in output, April 100
—Jewell Smokeless Coal executes $2.75 million modernization program, April 112
—Kessler Coals institutes a training program second to none, January 62
—MESA academy teaches all phases of mining, April 122A
—Odyssey of Zapata's prep plant, The, October 66
—UCC's versatile new preparation plant treats a wide range of raw coals, September 68
—WVU ventilation monitoring system boosts safety in underground mining, November 56
—West Virginia University professors work for electrical safety, May 107
—Westmoreland is ahead using its own lighting laboratory, March 60
Maloney, Joseph P. & Venkatesan, Stan
—Coal preparation technology gears up to meet utilities' needs, September 81
Mine worker training & development, January 58
Mugging of equipment manufacturers, The (Comment), November 9

N

National Coal Association, January 61
New hydrogen process is in the works, A, April 124
New Interior Secretary comes with favorable auspices, February 70
New micro-processor control provides more capability, better performance, August 76
New mine rescue system is ready in South Africa, A, November 68
New mining technology: What to look for in the next 24 months, January 80
Nickeson, Floyd H.
—ME-MMA looks at lighting, March 72
—New micro-processor control provides more capability, better performance, August 76
Nolden, Carol
—Energy technology for now . . . and for the future, May 94
—Western growth continues at a stymied pace, January 76
—What's all this about 'training', December 82

O

Odyssey of Zapata's prep plant, The, October 66
Oil shale mining: an elusive goal, October 110
Oklahoma Gas & Electric, Muskogee, OK, December 78
"1.1 billion tons by 1985"—Says who? (Comment), June 7
Optimize your surface mining & reclamation operations, June 71

P

Park, Duk-Won & Peng, Syd S.
—Shortwall mining in the US: A record of failure and success, December 54
Peng, Syd S. & Park, Duk-Won
—Shortwall mining in the US: A record of failure and success, December 54
Past is prologue!, The (Comment), March 7
Phillips, Peter J.
—How blending improves coals' quality, October 60
Phillips, Peter J. & DeRienzo, Paul P.
—Assessing the economics of steam coal preparation, September 74
Pittsburg & Midway Coal Mining Co., Denver, CO, March 54
Pittsburg & Midway sets sights at 30 million tons by 1985, March 54
Pittston, Clinchfield Div., Carbo, VA, May 90
Poe, Edgar
—Oil shale mining: an elusive goal, October 110
—Tough strip mining statute is assured, June 64
Preparation/Processing
—Assessing the economics of steam coal preparation, September 74
—Bearce dryer goes commercial, The, October 72
—Bi-Gas pilot plant processes 5 tph, September 86
—Calculating heat content from ash percentages, May 112
—Coal preparation technology gears up to meet utilities' needs, September 81
—Coal processing facility stores 100,000 tons for train loading, March 64
—Coal stockpiling gets priority at OG&E's new power generating plant, December 78
—Conventional mine produces 70% coarse coal for easy cleaning, December 70
—Guidelines to quieting noise in preparation plants, July 60
—How blending improves coals' quality, October 60
—How to select the right thickener, May 98
—Jewell Smokeless Coal executes $2.75 million modernization program, April 112
—Largest-ever liquefaction plant will test H-Coal process, March 84
—New hydrogen process is in the works, A, April 124
—Odyssey of Zapata's prep plant, The, October 66
—Reducing screen noise in coal cleaning plants, August 64
—Tough environment of coal preparation plant tests metal siding and roofing stamina, September 113
—UCC's versatile new preparation plant treats a wide range of raw coals, September 68
—Vibrating screen separator aids in advanced coal combustion research, February 68
Prestressing promises reliability in large-capacity silos, June 65
Price, Joel
—Black gold—The dark & shiny sides for '77, January 72
Product liability lawsuits: the manufacturers' nightmare, November 52
Production shortfall is seen as certain in the 1980's, April 120
Programs for the 1977 Coal Conference & Exposition IV, October 78
Prouty, Dick
—Belle Ayr mine aspires to 15 million tons in 1977, April 94
—Production shortfall is seen as certain in the 1980's, April 120
—Western area coking coals are a $200 million business, May 89

R

Reducing screen noise in coal cleaning plants, August 64
Ricker, C. H.
—Great Lakes terminal opens way for western coal shipment, February 60
Russell, David C. & Lee, L. Courtland
—Whatever happened to federal coal leasing?, June 60
Rutter, Duncan
—How the British train their miners, July 51

S

Sacks, H. Kenneth & Ungar, Eric E.
—Guidelines to quieting noise in preparation plants, July 60
—Reducing screen noise in coal cleaning plants, August 64
Safarian, Sargis S.
—Prestressing promises reliability in large-capacity silos, June 65
Scott, Frank E.
—Woman's place is . . . in the mines?, A, November 63
Scrubbers win the energy-SO_2 controversy, October 64
Selby: Britain's biggest coal mining project gets underway, December 66
Selby Coalfield, Wistow, Great Britain, December 66
'77 AMC Coal Convention, The, April 68
Shaffer, Frank E.
—We can handle it, July 48
Shantz, Robert
—Calculating heat content from ash percentages, May 112
Short farce, A, January 74
Shortwall mining in the US: A record of failure and success, December 54
Smith, William M & Alderman, John K.
—Acid mine drainage: The problem & the solution, August 66
South African coal industry sees significant expansion, February 71
Space photography—A valuable tool for surface mine planning, March 78
State of the art of ground monitoring, The, June 88
Strengthening the links of the chain, (NCA Hotwire), April 142
SUNEDCO's new Cordero facilities integrate strip mining & reclamation, July 46
Sunoco Energy Development Co., Cordero mine, Gillette, WY, July 46
Surface mining
—Belle Ayr mine aspires to 15 million tons in 1977, April 94
—Crawler tractors strip to 150 ft in block-cut operation, September 110
—Dozers & loaders work together to uncover thin Kentucky seam, June 106
—Drilltech opens new Florida plant, February 82
—Falcon Coal shines in experimental reclamation, June 66
—How to cope with blasting problems in strip mining, September 94
—How to keep diesel engines at peak efficiency, August 72
—Knife River keeps ahead in reclamation, May 84
—Optimize your surface mining & reclamation operations, June 71
—South African coal industry sees significant expansion, February 71
—Space photography—A valuable tool for surface mine planning, March 78
—SUNEDCO's new Cordero facilities integrate strip mining & reclamation, July 46
—Tough strip mining statute is assured, June 64

T

Tebco, Inc., Louisa, KY, June 106
Time has come to re-examine the mine safety law, The (NCA Hotwire), May 21
Tough environment of coal preparation plant tests metal siding and roofing stamina, September 113
Tough strip mining statute is assured, June 64

U

UCC's versatile new preparation plant treats a wide range of raw coals, September 68
U.S. coal exports: still huge, but declining, November 74
Underground mining
—Amherst boosts production 50% with continuous haulage system, August 52
—Battery vehicle fleet demands careful maintenance, February 64
—Effective use of industrial engineering in the deep mine, July 54
—Electronic automation accelerates in Britain, January 66
—Enforcement begins for ground check monitoring underground, June 84
—Fledgling coal producer pushes toward the top in output, April 100
—Ground monitoring units that meet the standards, June 98
—Kessler Coals institutes a training program second to none, January 62
—Longwall mining's improved outlook, December 60
—ME-MMA looks at lighting, March 72
—New mine rescue system is ready in South Africa, A, November 68
—Selby: Britain's biggest coal mining project gets underway, December 66
—Shortwall mining in the US: A record of failure and success, December 54
—South African coal industry sees significant expansion, February 71
—State of the art of ground monitoring, The, June 88
—WVU ventilation monitoring system boosts safety in underground mining, November 56
—West Virginia University professors work for electrical safety, May 107
—Westmoreland is ahead using its own lighting laboratory, March 60
Ungar, Eric E. & Sacks, H. Kenneth
—Guidelines to quieting noise in preparation plants, July 60
—Reducing screen noise in coal cleaning plants, August 64
United Coal Companies, Grundy, VA, September 68

V

Venkatesan, Stan & Matoney, Joseph P.
—Coal preparation technology gears up to meet utilities' needs, September 81
Vibrating screen separator aids in advanced coal combustion research, February 68

W

WVU ventilation monitoring system boosts safety in underground mining, November 56
We can handle it, July 48
We must move into a new era, January 64
We need action, not more debate, on technology advancement! (Comment), January 9
We think we're reasonable . . . (Comment), April 16
Weaver, Robert A., Jr.
—Bi-Gas pilot plant processes 5 tph, September 86
Weber, Frederick R.
—How to select the right thickener, May 98
Welcome new spirit, A, (NCA Hotwire), March 51
West Virginia University professors work for electrical safety, May 107
Western area coking coals are a $200 million business, May 89
Western growth continues at a stymied pace, January 76
Westmoreland Coal Co., Philadelphia, PA, March 60
Westmoreland Coal Co., Stonega Div., Big Stone Gap, VA, July 54
Westmoreland is ahead using its own lighting laboratory, March 60
Whatever happened to federal coal leasing?, June 60
What's all this about training?, December 82
Who you'll see at the Exposition, October 77
Willowbrook Coal Preparation Plant, Grove City, PA, October 72
Witbank Colliery, Ltd., Witbank, Eastern Transvaal, Republic of South Africa, February 71
Woman's place is . . . in the mines, A, November 63

Z

Zapata Fuels, Inc., Houston, TX, October 66
